

SPEAKER NICHOL: Senator Barrett, now would you like to tell us about it.

SENATOR BARRETT: Well, Mr. President, I'd be delighted. Senator Lundy and I have co-sponsored this resolution for "Steph" who is one of the neatest young people I've met. She does happen to come from my district. She was a unanimous choice to come back and Page for us again this, her second, year. I was delighted to note the honor that she was recently accorded, and that is being elected president of the Nebraska Wesleyan University Student Affairs, apparently quite an honor. However, my real concern, of late, is the fact that "Steph" has to run twice as fast when we call her because now she can, with that one wing, she can only serve one coffee...one cup of coffee at a time. I'm just delighted to share in this resolution with Senator Lundy. It isn't often that we get a chance to honor one of our own. This is that time. Thank you.

SPEAKER NICHOL: Thank you. Senator Lundy.

SENATOR LUNDY: Mr. Speaker and members of the body, I, too, rise to certainly support this young lady, a real fine person, one who has certainly been at the forefront here to help us in the Legislature. When honors come to these individuals, as they have to "Steph", then it pays an honor to us also. We are certainly proud of her and wish her well in her future years. Thank you, Mr. Speaker.

SPEAKER NICHOL: Thank you. Senator Beyer.

SENATOR BEYER: Mr. Speaker and colleagues, I am equally proud to say that I was on the Page selection committee when we first hired her, and I did not twist her arm. She did that playing volley ball.

SPEAKER NICHOL: Thank you. Senator Marsh, please.

SENATOR MARSH: Good morning, Mr. Speaker and members of the Legislature. As one of the trustees of the board at Nebraska Wesleyan University, I am very proud of this young woman and proud to be a part of the institution for whom she will be the representative. Thank you.

SPEAKER NICHOL: Thank you. She certainly is a good Page and operates the board up here very well with one or two arms. So I
